

uDropshipBatch add-on

Purposes

- Allow vendors to process following data in batch:
 - Receive new POs
 - Submit PO acknowledgements
 - Submit Tracking IDs
- Support data formats:
 - CSV
 - Tab separated
- Communication channels:
 - web page text area
 - email
 - FTP/SFTP
- Allow custom import/export data templates for each vendor
 - New PO format:
 - Single flat file, including PO ids, shipping info and item SKU/qty
 - Two files, 1st for PO header rows, 2nd for items information
