

CRON SETUP

magento base setup here:

http://devdocs.magento.com/guides/m1x/install/installing_install.html#install-cron

but you need to configure your cron to be run using this command

```
wget http://<magento base url>/cron.php
instead of
/path/to/bash /path/to/magento/cron.sh
```

also modify ***cron.php*** add line

```
$isShellDisabled = true;
```

after

```
$disabledFuncs = explode(',', ini_get('disable_functions'));
$isShellDisabled = is_array($disabledFuncs) ? in_array('shell_exec',
$disabledFuncs) : true;
$isShellDisabled = (stripos(PHP_OS, 'win') === false) ? $isShellDisabled :
true;''
```

it should be

```
$disabledFuncs = explode(',', ini_get('disable_functions'));
$isShellDisabled = is_array($disabledFuncs) ? in_array('shell_exec',
$disabledFuncs) : true;
$isShellDisabled = (stripos(PHP_OS, 'win') === false) ? $isShellDisabled :
true;
$isShellDisabled = true;
```
